- English (Fluent)
- Hebrew(Native language)

PROFILE

Full Stack Developer with expertise in Java, Spring Boot, React.js, and TypeScript. Skilled in building scalable web applications and integrating RESTful APIs with MySQL databases. Passionate about crafting intuitive and responsive UIs, ensuring seamless user experiences. Strong background in Agile development, multithreading, and CI/CD automation, ensuring efficient workflows and high-quality code.

MY PROJECTS

Recipesdemo

- Built a full-stack recipe management platform using React, TypeScript, Spring Boot, and MySQL.
- Implemented JWT authentication for secure user access and role-based permissions.
- Designed an interactive UI with Material-UI, Redux Toolkit for state management, and React Hook Form for validations.
- Developed RESTful APIs with Spring Boot, JPA, and Swagger, ensuring smooth backend operations.
- Integrated real-time notifications using WebSockets for recipe updates and user interactions.
- Added search & filtering by cuisine, difficulty, ingredients, and user preferences.
- Optimized database queries and caching mechanisms for enhanced performance and scalability.
- Automated CI/CD workflows for seamless deployment and updates.

Hotel Management System

- Developed a hotel reservation system with React, Java, Spring Boot, and MySQL.
- Implemented secure booking management with JWT authentication and session handling.
- Added room filtering, pagination, and dynamic price calculations based on availability.
- Created a profile management module, allowing users to view, modify, and cancel bookings.
- Integrated real-time notifications using Notyf for instant booking confirmations.
- Managed hotel services like Spa, Fitness Room, and Business Center, with an admin dashboard for service updates.
- Developed a responsive UI optimized for mobile and desktop experiences.
- Used GitHub for version control and CI/CD pipelines for automated deployment.

WORK EXPERIENCE

Noyhasade
Procurement and Logistics Manager | IT & Helpdesk Specialist   2020-2021

- Optimized supply chain, reducing costs and improving vendor management.
- Led contract negotiations, securing better terms and reliability.
